

AnyLogic activation instructions

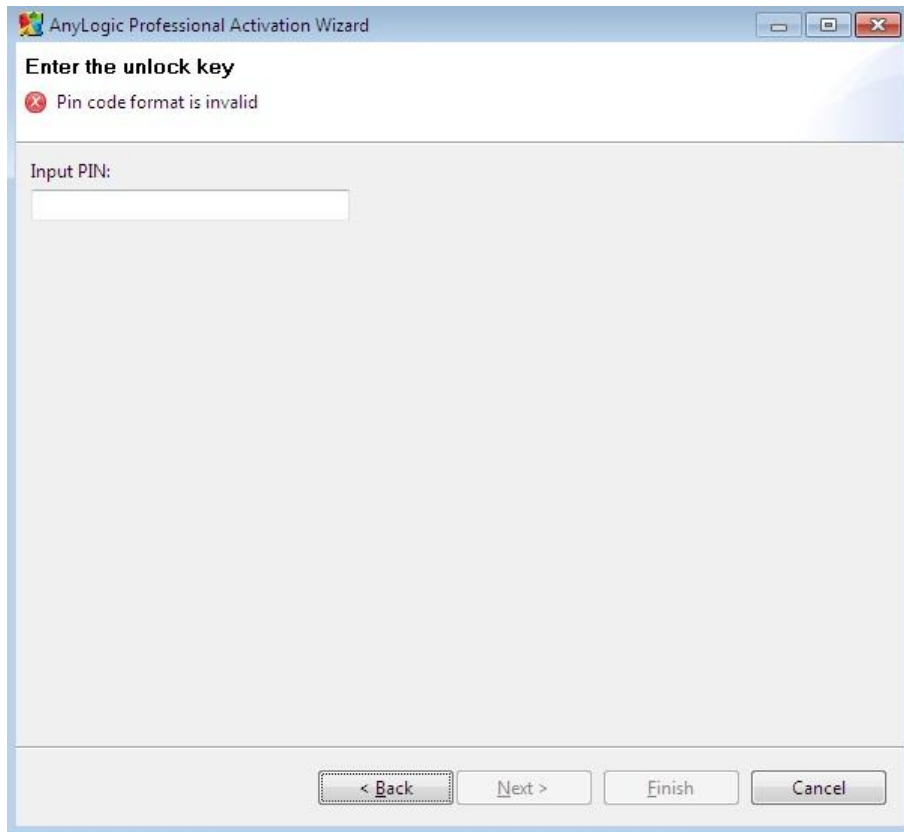

Dear Customer

Thank you for choosing AnyLogic! Please complete the following steps to download and activate AnyLogic 6:

1. Download AnyLogic 6 Professional distribution set: <http://www.xjtek.com/anylogic/download/>
2. Install AnyLogic and run it. An activation wizard will show up automatically (to open it again later select “Help | Activate product”).
3. Select the option "Use an USB Dongle to activate AnyLogic. Please, insert a Dongle before pressing next button"

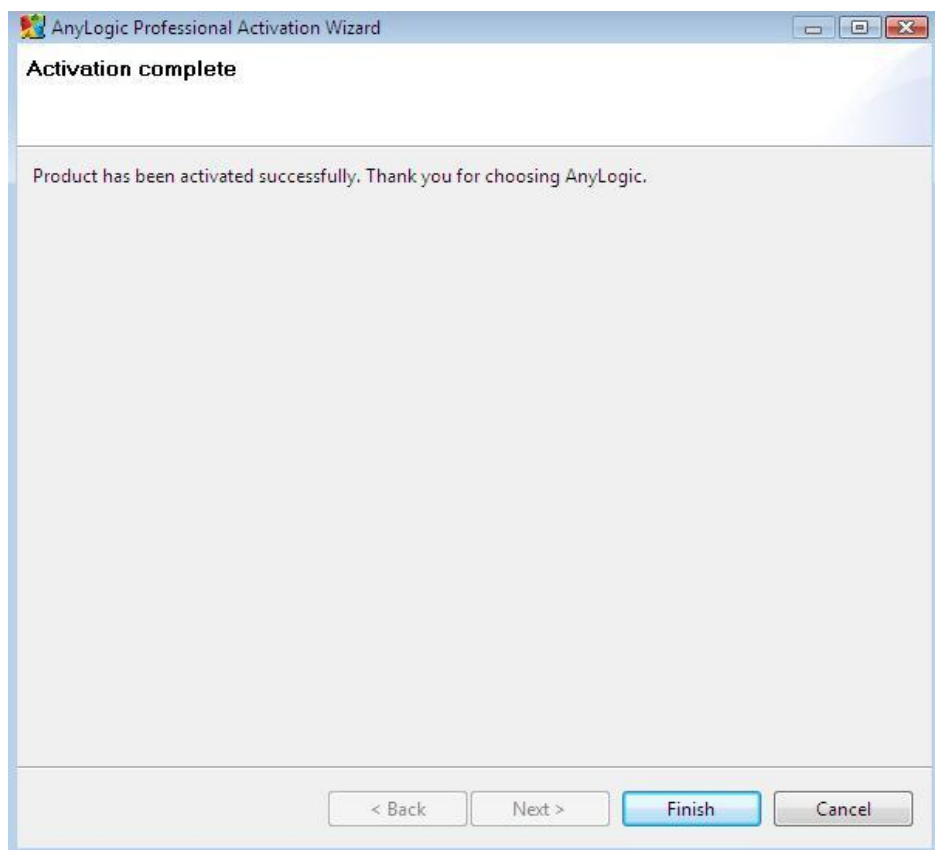

4. If it's the first time a dongle is used for activation of AnyLogic, the Activation Wizard displays the “dongle activation” dialog. Please, enter the dongle's pin-code provided by your distributor.

NOTE: Dongle has to be activated just once. When first activation is completed, AnyLogic won't require dongle's pin-code neither on this machine nor on others pc's.

5. Now your product is activated.
